Skilfully highlight baked goods with our "Bakery" T8 LED tubes.

The T8 LED tubes have been specially developed to provide individual light distribution to emphasize the freshness and appetizing nature of baked goods in bakeries, stores and supermarkets without over-embellishing. Manufactured from PET-coated glass (shatter protection), they meet important requirements of the food industry. They also offer a high colour rendering index (CRI) of 85/95 and a special R9 value that is optimized for the respective application.
